Thank You for supporting AES Cubs

Safety is priority for our students. We have a moral and legal obligation to be aware of all visitors in our school. All doors to our building are locked at all times, and any person on school property who is not a student or staff member of AES is considered a guest. Permission must be gained from the office for all visitors who need to enter our building, and once signed in a visitor's pass will be issued before guests proceed to any other part of the building.

If you need to pick up your child for an appointment or drop something off, you can enter the vestibule where there is a window and a doorbell and you can request that your child/ren be called to the office and sign him or her out or simply drop off the forgotten item through the window. Please understand due to this policy that parents/guardians **must refrain** from following students to their classrooms or going directly to the playground during school hours.

For routine dismissals we ask all parents to wait outside in the designated area until all students are dismissed.
